Functionality of "Status" Column for Student's Grades

This improvement is designed to give the instructor the option to not allow students to see their current scores on each question within a homework set which prevents the student from taking a trial and error approach to gaining a good score.

Prior to this update, the student would normally see a screen where the status column reported your current percentage correct for each question within the homework set.

This is the screen you see after you log in as a student and click on a homework set.

Problems

Name	Attempts	Remaining	Worth	Status
Problem 1	2	unlimited	1	100%
Problem 2	1	unlimited	1	0%
Problem 3	1	unlimited	1	67%
Problem 4	3	unlimited	1	50%

Dropdown options:
Yes
No
Only after set answer date
Totals only (not problem scores)
Totals only, only after answer date

Set Description

All other options introduce this new functionality by hiding the percentages in the status column as shown below. Instead of percentages, the message "In Progress" is displayed. The "No" and "Only after set answer date" options show "In Progress", but will show individual percentages for each problem in the "Grades" tab. The "Totals only" options will just show homework set totals, not individual percentages.

Problems

Name	Attempts	Remaining	Worth	Status
Problem 1	2	unlimited	1	In Progress
Problem 2	1	unlimited	1	In Progress
Problem 3	1	unlimited	1	In Progress
Problem 4	3	unlimited	1	In Progress

The final option, "Totals only, only after answer date", would show "In Progress" as well, but would display percentages after the quiz is closed. This would be triggered by the "Closes" date the instructor sets.
